

Elizaveta Abramova

Frontend Developer

Tel.: +995 591 11 47 29 / E-mail: a.d.elizaveta@gmail.com / [LinkedIn](#)

SUMMARY

Frontend Engineer with 1.5+ years of experience building scalable and responsive web applications using React, TypeScript, and Next.js. Experienced in developing reusable UI components, design-system-driven interfaces, REST API integrations, and performance-focused frontend applications. Skilled in component-driven development with Storybook, frontend optimization, accessibility, testing, and collaboration with cross-functional teams. Focused on building maintainable, user-centric products with strong attention to usability, consistency, and code quality.

SKILLS

Frontend: React, Next.js, TypeScript, JavaScript (ES2020+), HTML5, CSS3

UI & UX: Storybook, Component-Driven Development, Reusable Component Libraries, Material UI (MUI), Tailwind CSS, CSS Modules, Responsive Design, Accessibility Standards, Pixel-Perfect Implementation, Localization (i18n), Multilingual Interfaces

State & Data: Redux Toolkit, TanStack Query, React Hook Form

Performance & Quality: Frontend Optimization, React Testing Library, Vitest, Jest, ESLint, Prettier

API & Integration: REST API Integration, API Typing, Client-Server Architecture

Tools: Git, GitLab, Vite, Husky, Figma

AI-Assisted Development: GitHub Copilot, ChatGPT, AI-powered debugging and development workflows

PROFESSIONAL EXPERIENCE

Sovlium

Online platform that enables the creation of educational communities and their use in learning: online, blended, or offline. The project's main goal is to make education higher quality and more accessible through technology.

Frontend Developer (April 2026 – Present)

- Developed and maintained reusable UI components and shared frontend patterns to improve consistency across the platform
- Contributed to scalable frontend architecture and component-driven development practices using Storybook
- Built responsive and accessible interfaces with a strong focus on usability and user experience
- Optimized rendering performance and reduced unnecessary re-renders by 20%, improving application responsiveness
- Collaborated with backend engineers to integrate REST APIs and deliver production-ready features
- Participated in code reviews and frontend architecture discussions

Tech stack: TypeScript, React, Zustand, Next.js, Vite + TanStack/Router, TanStack Query, Tailwind CSS, Storybook, ESLint, Prettier, Husky, Commitlint, Shadcn/UI & Radix, Turborepo & FSD

Andersen Lab

Tbilisi, Georgia

Global software development company with over 18 years of experience supporting businesses worldwide in their digital transformation. Specialize in developing software solutions through the synergy of skilled professionals and efficient processes.

Frontend Developer (October 2024 – February 2026)

- Developed and maintained React-based interfaces for a large-scale banking platform used for financial operations and account management
- Built and improved reusable UI components to increase consistency and maintainability across application modules
- Wrote unit tests for critical UI functionality using React Testing Library, improving product reliability
- Optimized rendering performance through component refactoring, memoization, and frontend best practices
- Improved frontend maintainability by simplifying complex UI logic and reducing technical debt
- Resolved cross-browser and responsive layout issues while ensuring accessibility and usability standards
- Collaborated closely with designers, backend engineers, and QA specialists to deliver high-quality user experiences
- Participated in code reviews and frontend solution discussions

Tech stack: TypeScript, React, Redux Toolkit, Storybook, React Testing Library, GitLab, Jira, ESLint

EDUCATION

Udmurt State University
Bachelor's degree in Tourism (2016 – 2020)

Izhevsk, Russia

CERTIFICATIONS

The Rolling Scopes School

React Course (07/2025 - 09/2025)
JAVASCRIPT/Front-end(07/2024 - 05/2025)

LANGUAGES

- **English:** Intermediate (B1+)
- **Russian:** Native
